Company Introduction

Company Overview

Shanghai Jiakun Industrial Co., Ltd. is located in Jiading District, Shanghai. Its main products cover logistics automation equipment and installation, smart home appliance automation equipment, motor insulation products, automotive tooling projects, automotive seats, optical films and electrical materials. The company holds multiple international certifications including ISO9001:2015, ISO14001:2015, IATF16949:2016, OHSAS18000 and UL.

The company has professional R&D, production operations, supply chain, HR & administration, and finance teams, with a comprehensive management system..

In order to serve global projects more efficiently, the company has established a factory in Malaysia, transferring some export operations to the Malaysian facility..

Company History

Patent History

The company holds a total of **21 patents**, including **1 invention patent** (ZL202010613578.X, a transmission mechanism for belt conveyors) and **20 utility model patents**, covering multiple technical fields such as conveyor structures, insulation product processing devices, and logistics transport chutes, fully demonstrating the company's continuous innovation capability in automated conveying and insulation products.

序号 Pos	专利号 Patent number	专利名称 Patentname	Patentname
1	ZL202010613578.X	一种用于带式输送机的传动机构（发明）	Adrivingmechanismforabeltconveyor(invention)

Shanghai Workshop

Main Process Equipment Assembly & Testing

Weekly Capacity
20 Containers

Monthly Output
4000000 USD

The following are the main workshop equipment and their categories, ensuring comprehensive and efficient production processes:

Stamping & Shearing

Punch Press,
Hydraulic Plate Shearing
Machine

Air Supply System

Screw Compressor, Air
Tank, Freeze Dryer

Drilling & Grinding

Bench Drill, Vertical Grinder

Sawing Equipment

Circular Saw, Panel Saw

Drill Milling

Drill Mill

Tapping Equipment

Small Tapping Machine,
Large Tapping Machine

The company has an experienced assembly and testing team. In the complete machine assembly of logistics automation conveyors, transfer machines, and sorting equipment, we adhere to the combination of manual precision assembly and point-by-point testing, ensuring smooth equipment operation, low noise, and low failure rate.

Taicang Workshop

Main Process

Sheet Metal Processing & Surface Coating

Plant Area
13000m²

Employees
80

Distance from
Shanghai
Factory
20km

Core Equipment

Laser Cutting Machine

DNE, Model D SOLAR 3000 & 6000, in operation since 2021, 2 units.

Tower CNC Turret Punch

Tailift, Model H1250X, in operation since 2021, 1 unit.

CNC Press Brake

NPL, Model V-Bend 100/3100, in operation since 2021, 3 units.

Welding Equipment

Handheld Fiber Welder, Platform Welder, Argon Arc Welder, Gas Shielded Welder, Stud Welder, in operation since 2021.

Powder Coating Line

Painting and coating production line purchased and put into operation in 2020.

Malaysia Workshop

Sunlive Technology SDN.BHD is located in Kulai, Johor, Malaysia. Mainly for automation equipment installation & testing and sheet metal processing.
Strategically located factory:

- Only 5 km from Senai Airport, Johor Bahru
- 15 km from PTP Port
- 70 km from Changi Airport, Singapore

2 units

Business Introduction

Customized Logistics Solutions · Customized logistics solution

Logistics Network Planning Consulting, logistics center concept design, system integration, tailored professional solutions for customer scenarios

Professional Integrated Supplier:

1. Warehousing & Automation Concept
2. Design
3. Engineering Planning & Design
4. Professional Project Management
5. Equipment Supply
6. Third-Party Equipment Integration
7. High-Level Control Function Design
8. Low-Level Control Function Design
9. Installation, Testing & Site Management
10. Low-Level Equipment Function Testing
11. High-Level Software Function Testing
12. System Final Acceptance Integration Testing

Business Introduction

Logistics Automation Equipment

The company has provided equipment manufacturing and on-site installation services for globally renowned enterprises and major airports. Clients include **Adidas, FedEx, Lego, JD.com, DHL, Amazon** and other Fortune 500 companies, as well as major hub airports including Shanghai Hongqiao Airport, Shanghai Pudong Airport, Qingdao Airport, Shenzhen Baoan Airport, Chengdu Shuangliu Airport, and Beijing Daxing Airport.

Belt Conveyors

Belt Conveyor, Power Turnover Belt, Multibelt Conveyor, Multibelt Junction, suitable for various logistics sorting scenarios.

Roller Conveyors

Driven Roller Curve, Gravity Wheel Curve, Rollermerge, Driven Roller Junction, Skewed Roller, meeting diverse conveying needs.

Chutes & Others

Cross Sorter, Double Chute, Twin Belt Conveyor, providing complete solutions for large logistics centers.

Logistics Integration Solutions

Logistics Network Planning Consulting, logistics center concept design, system integration, tailored professional solutions for customer scenarios

Logistics Automation Equipment - Project Overview

2009: Shanghai Hongqiao Airport T2 Terminal Conveyor Lines & Carousels
Conveyor and carousel of T2 terminal building of Shanghai Hongqiao Airport.

2012-2014: Shenzhen Bao'an Airport T3 Terminal conveyor lines & carousels; Chengdu Airport T2 Terminal conveyor lines & carousels; Australia Post Conveyor Lines
Conveyor and carousel of T3 terminal of Shenzhen Bao'an Airport. Conveyor and carousel of Chengdu Airport Terminal T2. Conveyor line of Australia Post.

2015: Fedex Conveyor Lines
Conveyor of Fedex Shanghai.

2016: Qingdao Airport carousels, Anta Quanzhou, Adidas Suzhou, Amazon Project - Conveyor Lines, Chutes, etc.
Qingdao Airport Turntable; Anta Quanzhou, Adidas Suzhou, Amazon project to provide conveyors, chutes, etc.

2017: Shaanxi Pharma, Wuhan Tobacco - conveyor supply
Supply conveyor of Sino Pharm Shanxi and Wuhan Tobacco.

2018: Beijing Daxing Airport sorting equipment, JD.com (Hangzhou, Chengdu-Wuhan) Sportmaster Project - conveyor supply
Beijing Airport Sorting Equipment. Supply conveyor Equipment for JD(Chengdu, Hangzhou, Wuhan) and Sportmaster.

2019: ZMT sorting equipment, JD.com (Hangzhou, Chengdu) on-site installation & resident service
Supply conveyor Equipment for Smarten Shanghai. Supply the installation service for JD Hangzhou and Chengdu.

2020: Shanghai Pudong Airport T1 Terminal conveyor lines, carousels and sterilization equipment
Conveyor, carousel and sterilizer of T1 terminal building of Shanghai Pudong Airport.

Logistics Automation Equipment - Project Overview

2021: Amazon Conveyors, SFE Zhou Airport sorters and conveyors, DHL Hong Kong and Incheon sorters and conveyors, FEDEX Incheon sorters and conveyors, Suzhou Adidas X Sorter installation, double chute installation, Ningbo Peacebird double chute installation, Taicang P&G roller lines, Taicang Puma Chute Installation

Conveyor for Amazon. Conveyor and sorter for SF Mega Hub and FEDEX, DHL. Double chute for Adidas X and Puma, Peace bird. Field installation for Peace bird, Adidas X, Puma.

2022: Amazon QCB4 QCB5 SCY6 Project conveyors, Woolworths Project conveyors
Supply conveyor Equipment for Amazon QCB4 QCB5 SCY6 and Woolworths.

2023: Sportmaster Project conveyors, DHL Adelaide Project conveyors, Asics Australia Project conveyors
Supply conveyor Equipment for Sportmaster, DHL Adelaide, Asics Australia .

2024: Amazon Project conveyor lines, Xiamen Airport, Taoyuan Airport, DHL Project, SF Express project conveyor lines, UPS Project
Conveyor and carousel Amazon Mel9 QCB5, DHL HK, DHL Incheon, Taoyuan AP, SF Mega Hub, UPS Incheon

2025: Amazon Project conveyor lines; Taiyuan Airport, Kmart, DHL Project
Conveyor and carousel of Amazon DEN9, CAZ5 Central HUB, Taiyuan AP, Kmart, DHL NZ

Major Clients

The company has long served globally leading logistics, retail, and aviation enterprises, establishing deep strategic partnerships.

Cooperative Clients

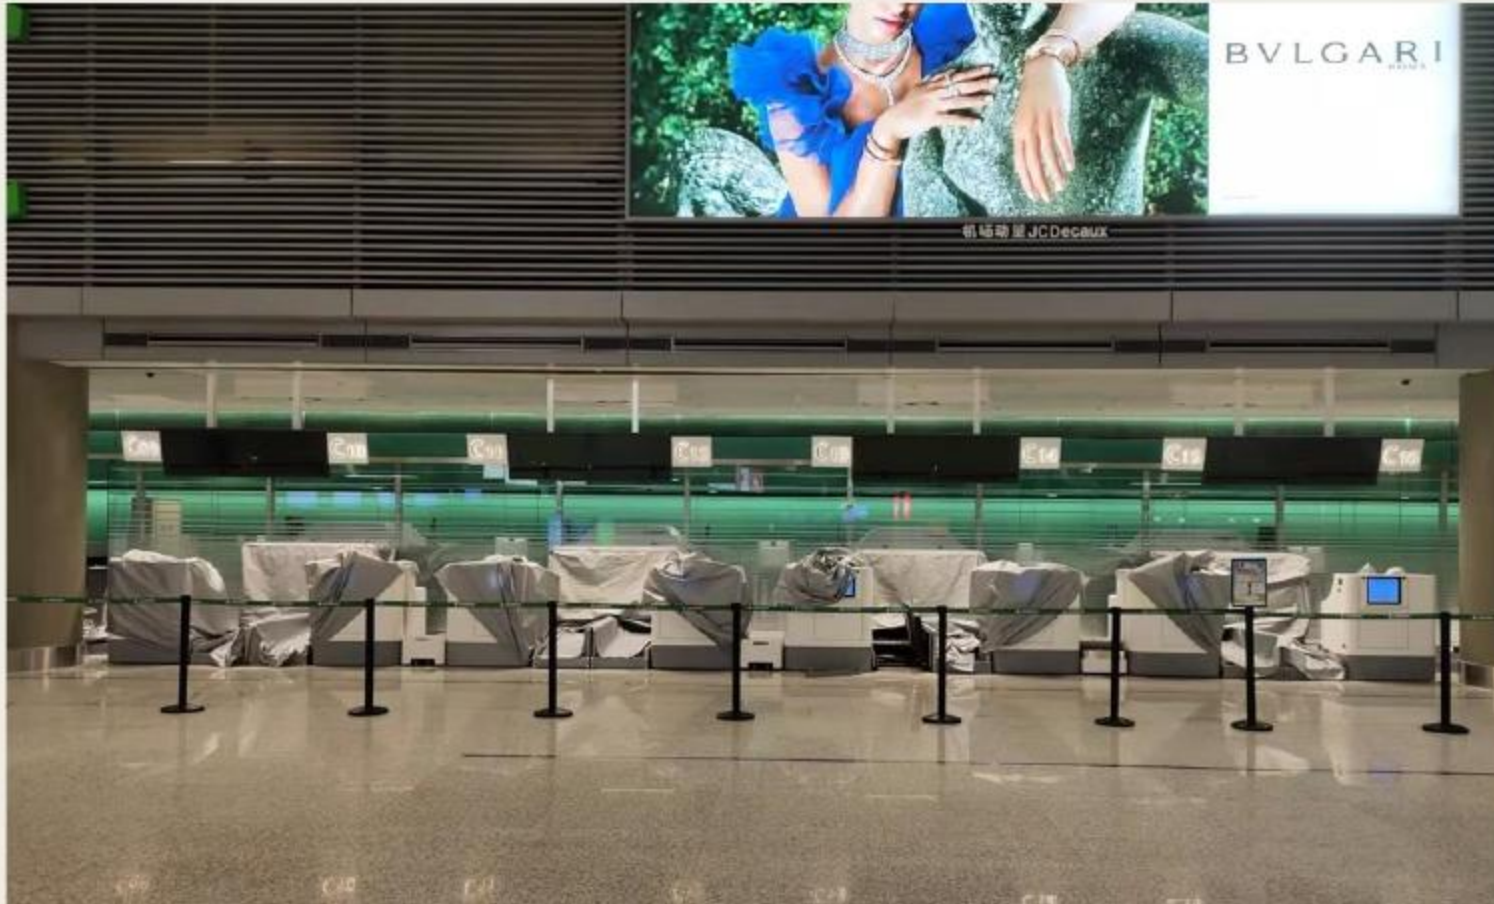

Project Reference of Installation Service

Vanguard Dongguan——Conveyor and sorter production and site installation, installation of hoist.

Project Reference of Installation Service

Shanghai Hongqiao Airport—— Installation of Baggage handling system

Project Reference of Installation Service

Shanghai Pudong Airport———— **Installation of Baggage handling system**

Project Reference of Installation Service

Shanghai Pudong Airport———— Circuit Test for Baggage handling system

Project Reference

DHL HK——Conveyor, Chute and sorter production and site installation.

Project Reference

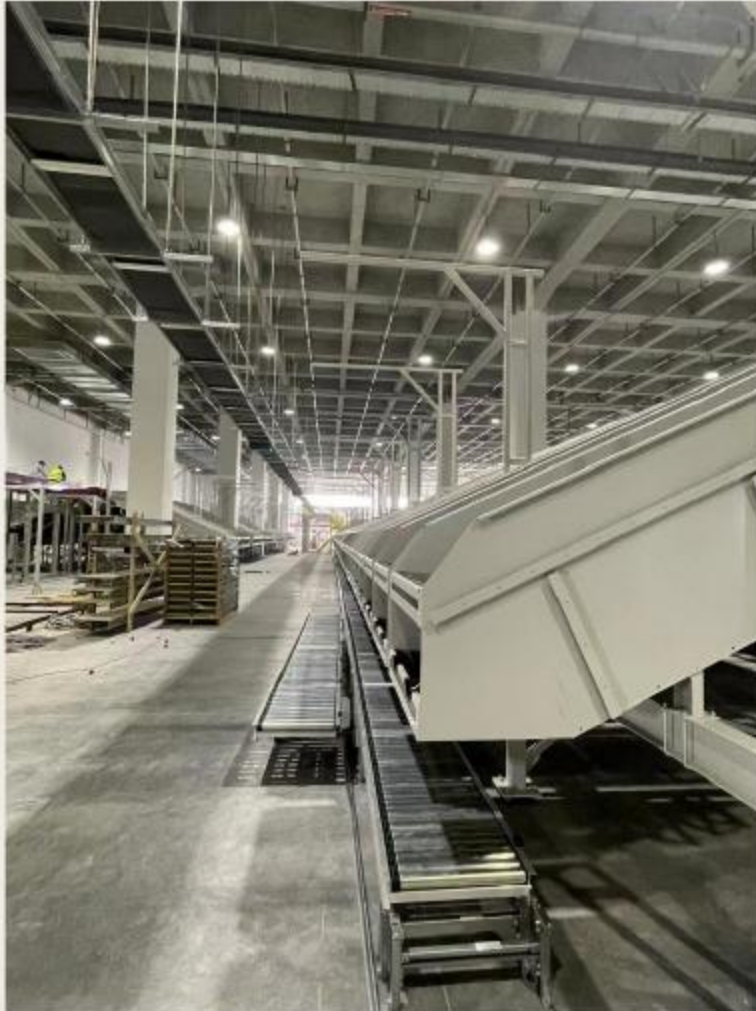

Fedex PVG——Conveyor, Chute and sorter production.

Project Reference

Adidas X Suzhou—— Double layer chute production and site installation.

Project Reference

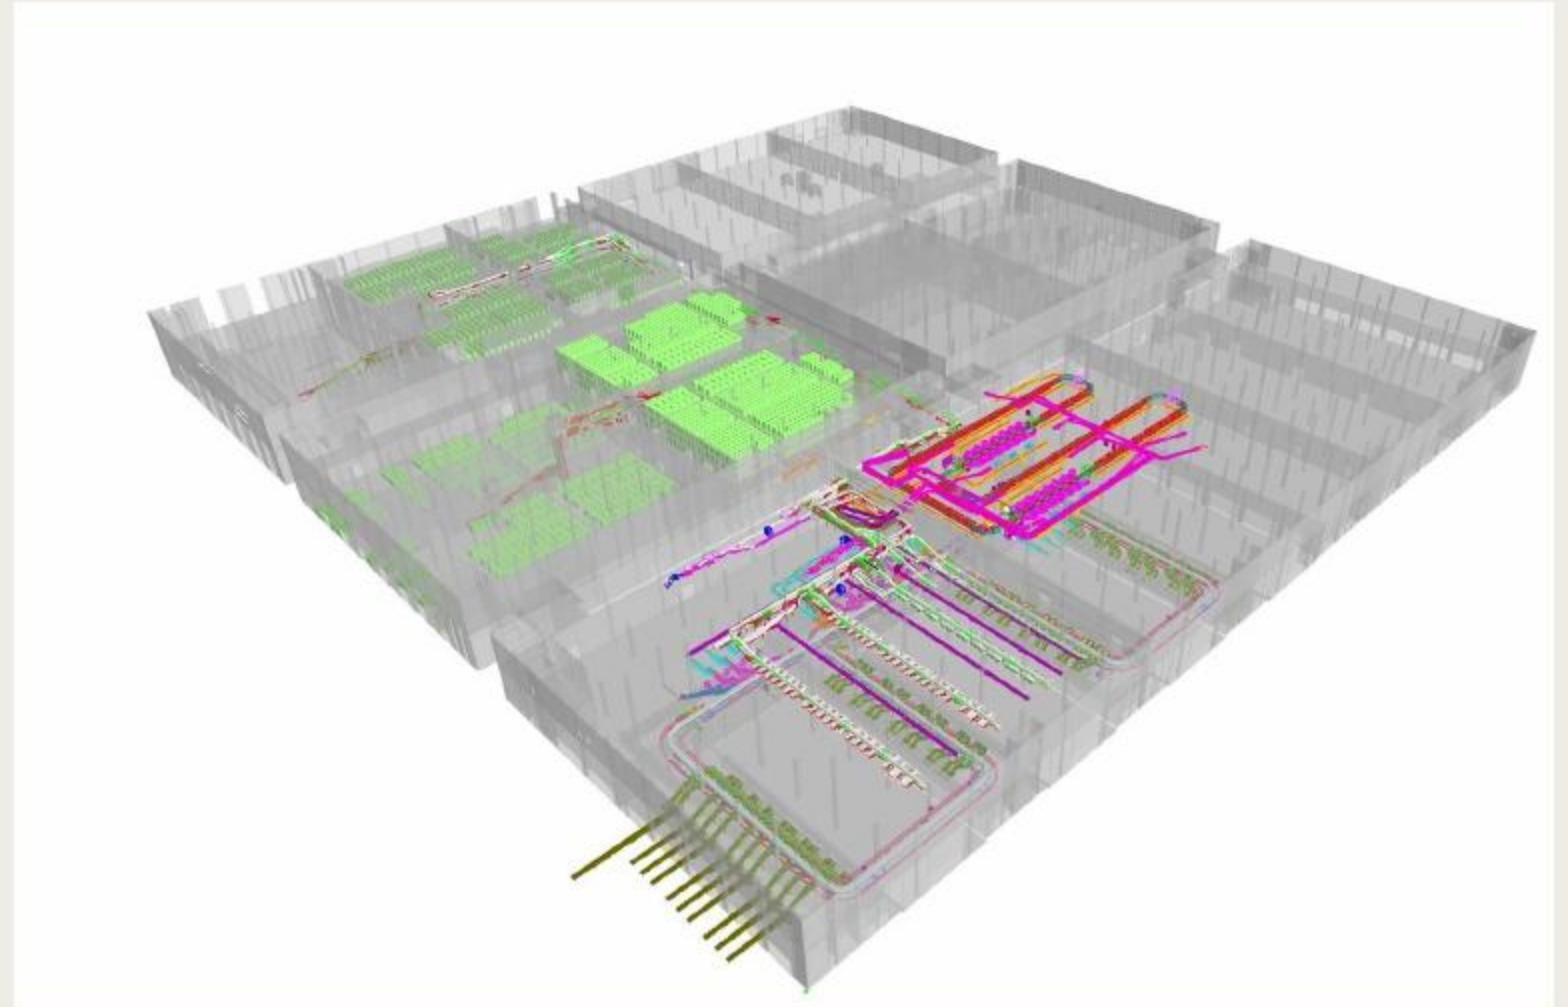

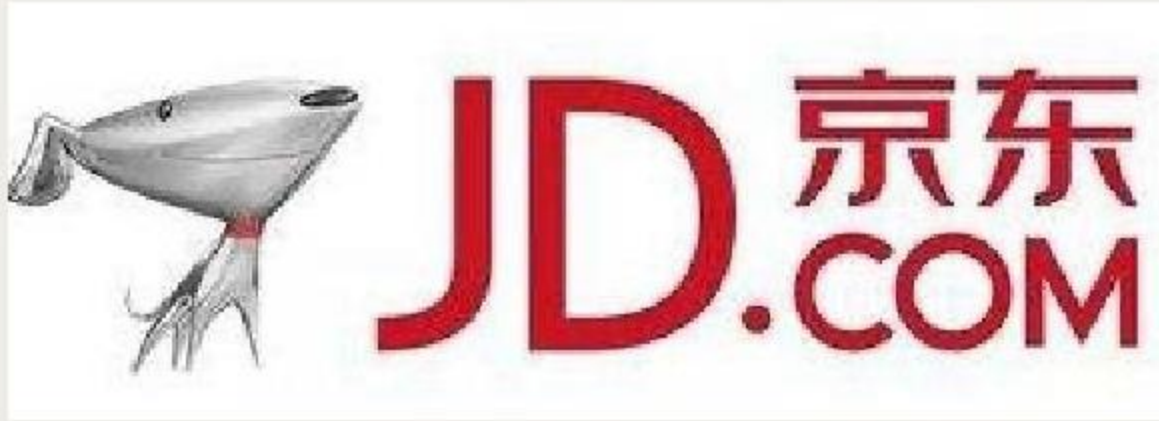

Puma Taicang—— Double layer chute production and site installation.

Project Reference

Liangpin Wuhan——Chute production and site installation, installation of sorter.

Project Reference

JD.com——Conveyor Lines of Hangzhou, Wuhan, Chengdu
Asia No.1 Project

Project Reference

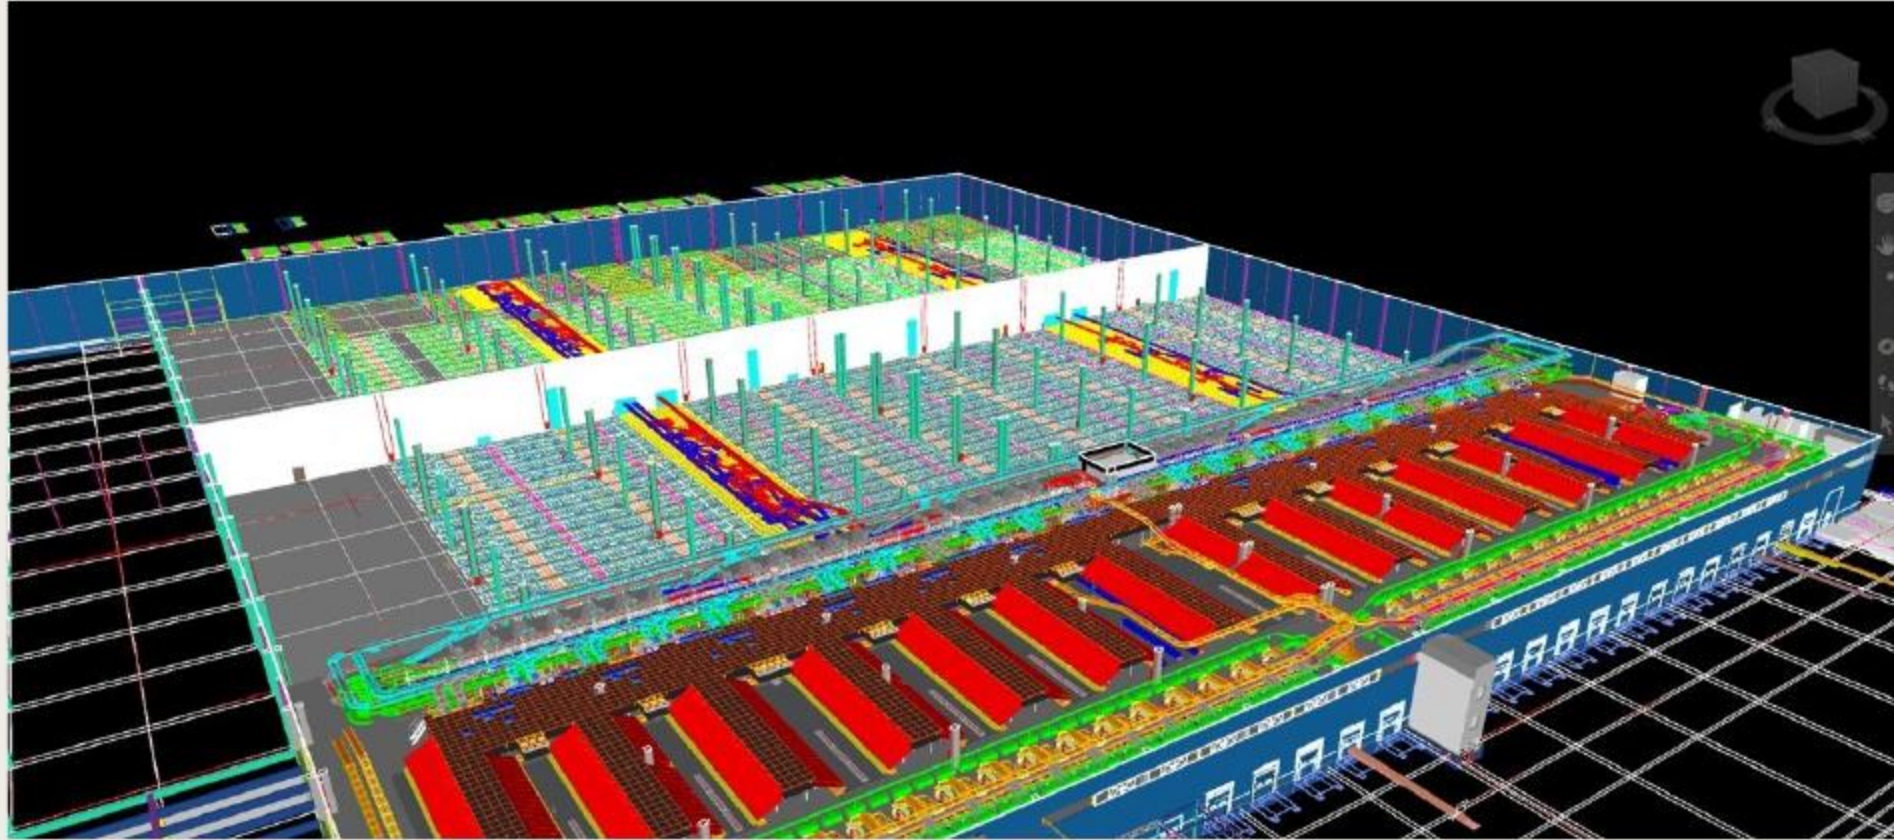

JD Chengdu, Wuhan, Hangzhou——Conveyor and sorter production and site installation.

Project Reference

AIZHI Guangzhou-Automatic Storage & Retrieval System

Project Reference

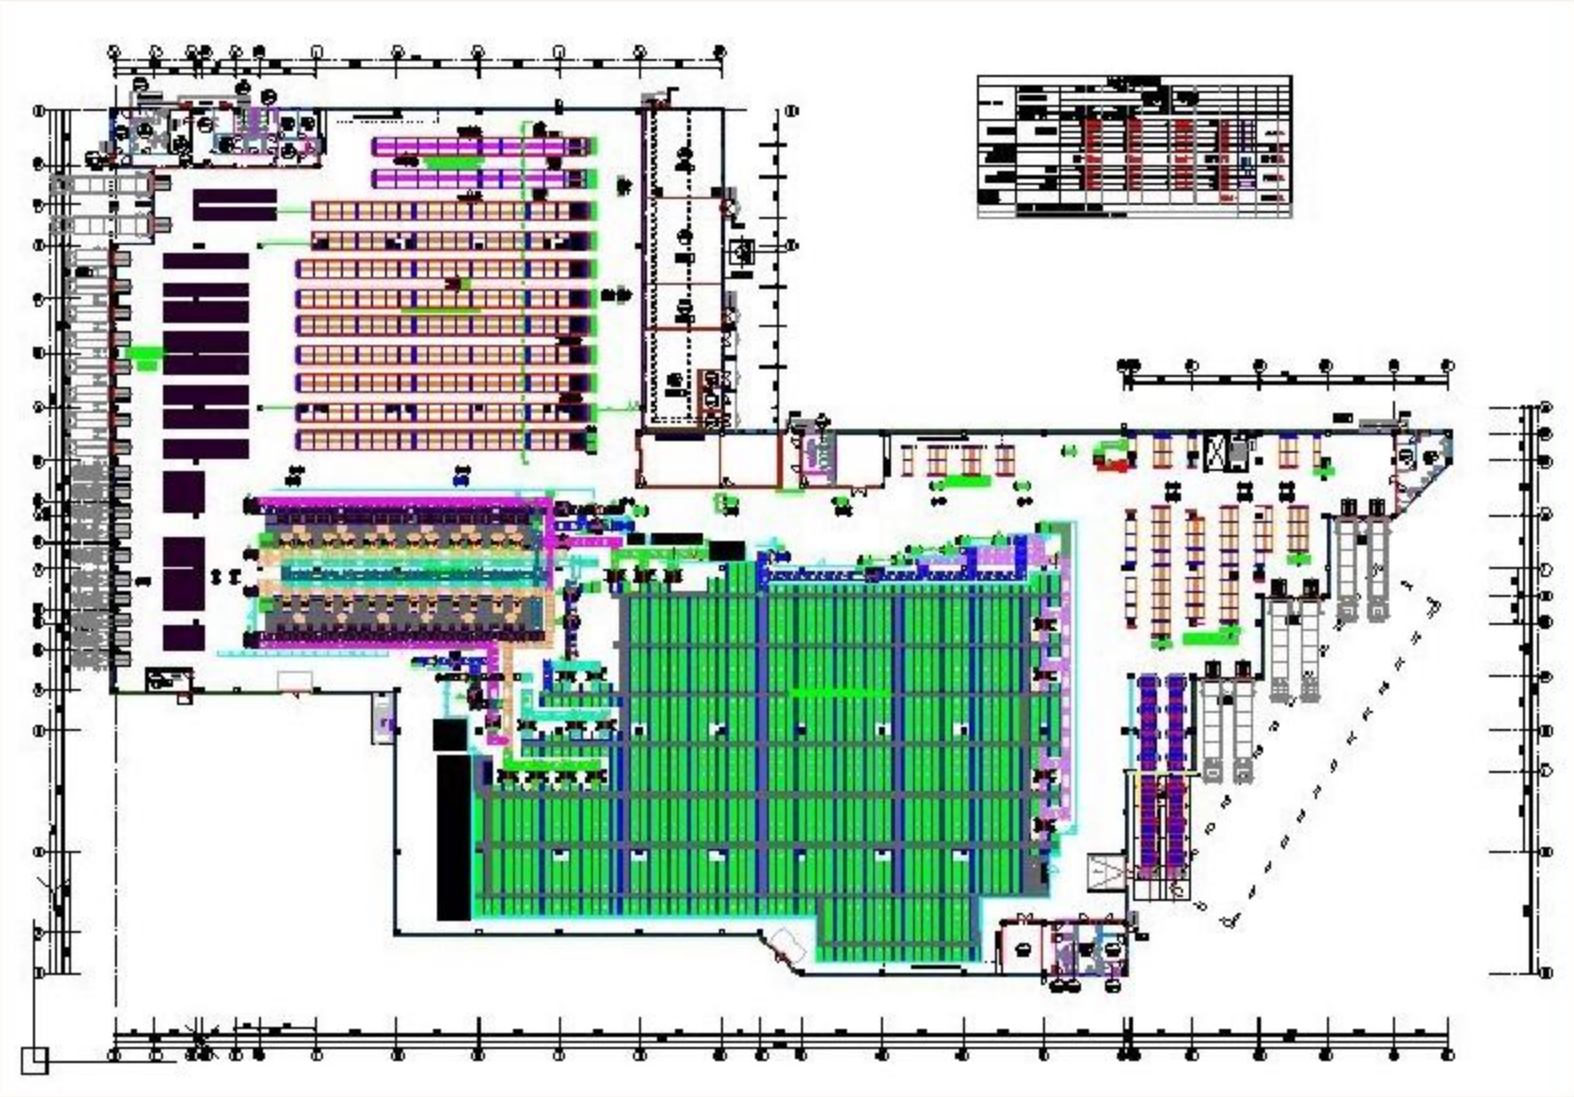

Warehouse System for Russia's Largest Footwear & Apparel Distributor

Project Reference

Lemana PRO Automated Storage & Retrieval System
